

GENERAL PERMISSION FORM

Videotaping, Sound and Photographs

During the school year, our students are often photographed, videotaped or have sound recordings made of their presentations, performances or at work in the classroom. These materials may be used by the Marin School of the Arts itself as evidence and examples, grant writing purposes or by media organizations profiling our school, performances, events or students. **In addition, occasionally outside sources may want to use these materials for specific projects – all these projects will be carefully looked at by the Marin School of the Arts.**

To simplify the process of permission slips for each occasion, we are asking our parents to sign, as their student joins the school, this permission form.

These photographs, videotape and sound recordings may also be used after your student has left Marin School of the Arts.

We intend to use these materials only for appropriate non-commercial purposes.
